Subject: Data Request

Hi there,
I'm with Bain & Company in San Francisco. I'm doing some research on Tire Crumb Rubber and came across your website:
<https://www.epa.gov/chemical-research/federal-research-recycled-tire-crumb-used-playing-fields>
I was wondering if you might be able to assist. Did you come across any data or information on US end market, market size, and any related historical data, or are you aware of any reports from any reputable sources that might have this type of data?

Kindly,
Lakegan
